

Export Oriented Garment Companies In Indonesia

2019

Export Oriented Garment Companies In Indonesia

Foreword

Assalamu'alaikum wr. wb.

Dear respected readers, Directory of Export Oriented Garment Companies in Indonesia is published as a concrete initiative carried out by APINDO together with API (the Indonesian Textile Association) and ILO BWI (Better Work Indonesia) to improve the dissemination of information about export oriented garment companies in Indonesia.

Indonesia's textile and garment products experienced growth in 2018. The export value in 2018 was recorded the highest in recent years, reached USD 13.9 billion, which increased by USD 600 million compared to 2017 which was only USD 13.3 billion. In the midst of various uncertainty factors such as trade war and exchange rate fluctuations, the exports of Indonesian garment products face many challenges. Nevertheless, Indonesians remain optimistic to maintain for higher growth in the future.

The textile and garment industry is one of the five industrial sub-sector cornerstones of the government to support industrial growth in 2019. The government has projected the growth of the textile and apparel industry around 5.61% in 2019. One of optimistic factors in export increment of Indonesia's garment product comes from the potential achievement of the Indonesia-EFTA (European Free Trade Association) Comprehensive Economic Partnership Agreement (IE CEPA). The cooperation will certainly play a role in supporting the export increment of our garment products to the European Union by two to three times in the next five years.

Export increment of Indonesian garment certainly requires proper marketing efforts. The publication of Directory of Export oriented Garment Companies in Indonesia is an effort to promote Indonesian garment companies. This directory will provide the latest information to prospective buyers who need information while looking at the potential of the export-oriented garment manufacturing industry in Indonesia. May be useful.

Thank you

**NATIONAL EXECUTIVE BOARD
THE EMPLOYERS' ASSOCIATION OF INDONESIA**

Hariyadi B. Sukamdani
Chairman

Foreword

Assalamu'alaikum wr. wb.

All the praises and thanks be to Allah Almighty, the Giver of bountiful blessings and gifts, so that we can continue to work, devote ourselves to national economic development.

Until now the Textile and Textile Products (TPT) remains the most important contributor to the National economy. Its labor intensive natures, making this industry the foremost in providing employment.

The TPT industry in Indonesia currently consists of the scale of the Medium Large Industry and Small Micro Industry. The location of the scale of the Medium Large Industry is almost entirely concentrated in Java, while the Micro Small Industry has spread throughout the country, so that this industry can accelerate regional economic equality.

Hopefully the national textile and garment industry will host their own country and will succeed in the global market.

Thank you

**NATIONAL EXECUTIVE BOARD
INDONESIAN TEXTILE ASSOCIATION**

Dipl. Ing. Ade Sudrajat Usman
Chairman
