Pengusaha Siap Ciptakan Lapangan Kerja

JAKARTA, KOMPAS — Para pengusaha anggota Asosiasi Pengusaha Indonesia siap membantu pemerintah menciptakan sedikitnya tiga juta lapangan kerja per tahun untuk mempercepat pertumbuhan ekonomi nasional. Pasangan presiden dan wakil presiden terpilih Joko Widodo-Jusuf Kalla meresponsnya dengan menyatakan akan segera merevisi regulasi penghambat investasi, membenahi pelayanan perizinan, dan mempercepat pembebasan lahan untuk infrastruktur.

Ketua Umum Asosiasi Pengusaha Indonesia (Apindo) Sofjan Wanandi menyerahkan secara simbolis kajian berjudul *Peta Jalan Perekonomian* kepada Joko Widodo disaksikan Jusuf Kalla di hadapan sekitar 1.000 pengusaha, duta besar, dan investor asing dari seluruh Indonesia, Kamis (18/9), di Jakarta. Apindo mengumpulkan berbagai masukan dari para pemangku kepentingan selama enam bulan mengenai tantangan dan solusi percepatan pembangunan ekonomi nasional untuk pemerintahan 2014-2019.

Ekonom senior Centre for Strategic and International Studies (CSIS) Djisman Siranjuntak merangkum isi kajian dalam 14 poin yang mendesak un-

kepemimpinan tegas dan cepat mengambil keputusan diharapkan dapat mengembalikan kualitas pertumbuhan Indonesia.

Jokowi mengungkapkan, ruang fiskal tahun 2015 sangat sempit antara lain akibat subsidi bahan bakar minyak dan program mengikat. Namun, Jokowi-JK akan terus mencoba melebarkan ruang fiskal dengan menghemat anggaran perjalanan dinas senilai Rp 30 triliun, anggaran rapat Rp 18 triliun, dan belanja rutin lainnya.

"Memang kelihatannya kecil-kecil, tetapi kalau dikumpulkan semua jadi banyak sekali. Pengalaman saya di DKI Jakarta, anggaran kantor saja bisa dihemat sampai Rp 4,2 triliun," kata Jokowi.

Ruang fiskal, tambah Jokowi, akan semakin lebar saat penerimaan pajak ditingkatkan. Sambil bercanda, Jokowi mengingatkan pengusaha agar taat asas membayar pajak sehingga laba mereka semakin meningkat.

"Pengusaha jangan simpan uang di bawah bantal, di deposito. Gunakan untuk berproduksi. Yang punya uang di luar negeri, tarik. Ini momentumnya. Investasi secepatnya jangan sampai ketinggalan," kata Jokowi disambut tepuk tangan yang hadir. (HAM)

The Indonesian Employers Association (APINDO) is ready to help the government created at least 3 million jobs per year to accelerate the growth of national economy. Chairman of APINDO, Sofjan Wanandi, handed a study titled Roadmap Economic to Joko Widodo, witnessed by Jusuf Kalla in the presence of entrepreneurs, ambassadors, and foreign investor in Indonesia. Apindo Tetapkan Lima Sektor Andalan Ekonomi

ASOSIASI Pengusaha Indonesia (Apindo) menetapkan lima sektor yang mampu membangkitkan perekonomian Indonesia, yaitu sektor pangan dan pertanian, energi, manufaktur, jasa, serta finansial.

"Lima sektor ini beserta lintas sektor tercait kepastian hukum, otonomi daerah, reformasi birokrasi, ketenagakerjaan, dan infrastruktur," kata Ketua Umum Apindo Sofjan Wanandi saat peluncuran peta jalan perekonomian Apindo di Jakarta, tadi malam.

Sofjan mengatakan kelima sektor tersebut telah disusun dalam Roadmap Perekonomian Apindo, yang telah diserahkan kepada presiden dan

wakil presiden terpilih, Joko Widodo-Jusuf Kalla.

Dalam peta jalan perekonomian tersebut, Apindo secara khusus menyoroti sektor infrastruktur yang memainkan peranan sangat penting mengingat daya dukung bagi peningkatan kinerja semua sektor.

"Karena itu, perlu perbaikan pengelolaan pembebasan lahan dengan meningkatkan akuntabilitas pemerintah termasuk di daerah untuk menjamin akses lahan," katanya.

Terkait dengan pembebasan lahan tersebut, kata dia, sudah diatur dalam UU No 2 Tahun 2012 tentang Pengadaan Tanah bagi Pembangunan

untuk Kepentingan Umum. Khusus di sektor energi, hal yang perlu dioptimalkan ialah pembangunan sumber energi baru dan terbarukan, yang meliputi biodiesel, energi panas bumi, dan gas.

Dalam peta jalan perekonomian itu, Apindo menargetkan akan menciptakan 3 juta lapangan kerja baru per tahun. Target itu, menurut dia, dapat dicapai dengan dukungan pemerintah dan syarat pertumbuhan ekonomi rata-rata 6% hingga 7% per tahun.

Dalam kesempatan yang sama Jokowi mengatakan sulitnya mengurus perizinan usaha akan menghambat pertumbuhan jumlah pengusaha.

Karena itu, Jokowi berjanji membenahi birokrasi yang menyulitkan para pengusaha.

"Masalah kita itu kan soal perizinan. Penyakit itu," tegas Jokowi, tadi malam.

Jokowi yang berlatar belakang pengusaha mengakui masih banyak birokrasi perizinan yang perlu dibenahi. Sistem satu pintu merupakan gagasan Jokowi yang bakal diterapkan kelak.

Di sisi lain, JK meminta para pengusaha tidak menyogok pejabat untuk memuluskan usaha. "Sehingga usaha kita meningkatkan perekonomian dengan sehat terwujud." (Ami/Ant/X-7)

Requesting the Employers to Obey Tax, Jokowi Denies Threaten

Elected President Joko Widodo alias Jokowi promised to maximize state revenues to widen the fiscal space. He asked the employers to obey paying taxes as liability on income they earned from their business. The narrowing fiscal space of state budget 2015 would be a severe challenge for Jokowi-JK while serving as President and Vice President of Indonesia. However, Jokowi still sees an opportunity to widen the fiscal space by shifting subsidized fuel oil (BBM), saving budget, and increasing tax revenues.

Elected President Joko Widodo alias Jokowi promised to maximize state revenues to widen the fiscal space. He asked the employers to obey paying taxes as liability on income they earned from their business. The narrowing fiscal space of state budget 2015 would be a severe challenge for Jokowi-JK while serving as President and Vice President of Indonesia. However, Jokowi still sees an opportunity to widen the fiscal space by shifting subsidized fuel oil (BBM), saving budget, and increasing tax revenues.
